How do we translate global programs like the SDG’s into the reality of life in municipalities of Upper Austria?
Connecting the global and the local level…

✓ Are the social, ecological and economic impacts equally taken into account in planning and projects of the community?

✓ How do we ensure a sustainable settlement development?

✓ How is the public transportation system? Which environmental-friendly traffic options do we have?

✓ Does our municipality offer enough affordable living space?

✓ What do we do to protect our cultural and natural inheritance?
Workshop for Municipalities

GemeindeNavi

AGENDA 2030

• What are we doing already?

• Which challenges should we tackle?
OUTCOME:

- low-threshold approach necessary and successful
- making visible what has been already achieved
- making new topics visible for future work
- integration in the funding program Agenda 21 as important step:
  - deepening results, external support for communities, developing goals and specific measures, …

OUTLOOK …

- experiment and gain experience in the Agenda 21 learning network
  - e.g.: focus on certain topics, digital tools, new methods…
